WHY CHOOSE THIS MACHINE...

24/7 operation

Easy mobility

Space-efficiency

Instant rate change

**Reduce labor costs
and rent expenses**

**Reduce risk of
counterfeit currency**

Simple training approach

**Reduce
human errors**

1 Anti-Money Laundering

With ID verification, the machine can establish transaction limits for each user on a daily basis, ensuring compliance with AML rules and regulations.

2 All Transaction Records

The machine securely stores and retains the records of all transactions, ensuring they are available for future retrieval, and audits and compliance checks.

3 Reliable Performance

The machine is designed for superior stability, ensuring minimal errors and requiring less maintenance.
